

# SoftLine Drive-Thru

Your 5,500 lb workhorse that doesn't need a vacation.

**Increase throughput by washing a car every 45 seconds while minimizing costs with the new Mark VII Softline Drive-Thru Tunnel. This vigorous workhorse doesn't need a vacation.**

**The Softline Drive-Thru is an efficient, robust, and easy-to-maintain machine. This machine is built to last with over 5,500 lbs of power and stability. So, if you're a car dealer, rental facility, or service center looking to increase customer satisfaction while minimizing costs, you've come to the right place.**

- All functions (pre-rinse, shampoo, rinse, RO) on one single frame making it compact and easier to fit in smaller spaces.
- Our stainless steel brush station is cut from premium material for stability, durability and corrosion resistance. The powder-coated finishing is available in white, blue or red color options to best suit your brand.
- Save money with the environmentally friendly electrical brush station, which consumes half the power of a hydraulic pump system. Each brush has its own inverter for a more precise adjustment of brush pressure on each vehicle. Plus no more risk of hydraulic leaks.
- The quiet and gentle wash pressure of the top brush is controlled with a combination of pneumatic cylinders and a counterbalance system, making the brush simple yet effective on all vehicles.
- A low-pressure pumping plant is included in the base package (pump, tank, stand as seen below). The pump creates consistent water pressure for all applications, so you can eliminate the risk of poor wash quality in the case of water pressure drop.
- Dual axle ball bearings and shock absorbers make the wrap-around brushes easy to maintain while keeping performance and functionality in mind.
- Patented SofTecs brush material gently and quietly cleans, polishes, and protects your customer's vehicle.

---

#### **Made in USA**

Manufactured in our 120,000 square foot facility in Arvada, CO. You won't need to endure long delivery times and extra shipping costs. Our headquarters in Arvada has been the home of Mark VII Equipment since 1966!

### What you get with the purchase a Softline Drive-Thru Tunnel
